Dear WESstand Technical Committee Members:

One public comment to the 2023 WESstand Report on Comments was received by Mr. Arnold Rodio to Item #132.

The public comment (Item #132 PC 1A) seeks to update Figures F 301.1(6) and F 301.1(7) to illustrate graywater piping vented through the roof to prevent conflicts with an existing American National Standard, the Uniform Plumbing Code (UPC), which requires venting through the roof.

In accordance with IAPMO's Regulations Governing Consensus Development of the WESstand, the public comment (Item #132 PC 1A) is being submitted to you for online balloting.

The Technical Committee ballot for **Item #132 PC 1A** is now available on the Kavi site and may be accessed using the following link:

<https://kavi.iapmo.org/apps/org/workgroup/2023wetc/ballot.php?id=7635>

The receipt of initial ballots is **Friday, March 15, 2024**. All negative votes and comments received by this date will be circulated to the TC to afford those who have already voted an opportunity to respond, reaffirm, or change their vote after reviewing comments. The final date for returning all ballots is **Friday, March 22, 2024**.

NOTE: The return of ballots is required in accordance with the Regulations Governing Consensus Development.

Please feel free to contact me if you have any questions.

Kind regards,

TAYLOR DURAN
